どんな未来にしたい？ What kind of future we want?

私たちは、地域全体で交流が少ないことが問題だと考えました！

We believed that the lack of interaction across the entire community was a problem.

**⇒お年寄りと子ども等を含めた人の交流の場 を作ることに
お金を使うべきです**

We should allocate money to create spaces where people—including the elderly and children—can interact!

⇒地域みんなが交流できて協力できる社会へ

⇒Towards a society where everyone can engage with one another and cooperate

問題意識:

暑くて公園で遊ぶことができない、子どもと高齢者が交流できる場所が少ない

Problem awareness: It's too hot to play in the park, and there are few places where children and elderly people can interact.

解決策:

(1)老若男女問わず遊べる・楽しめる室内のインクルーシブな公園の設置

(2)高齢者の健康維持につながる遊具/発電のできる遊具の設置

(3)海外との技術協力にお金を使う

⇒地域・国・世界の活性化へ

Solution: Using money for the creation of an inclusive indoor park where people of all ages and genders can play and enjoy themselves, the installation of playground equipment that supports elderly health and can generate electricity, and international technical cooperation

⇒ Toward revitalization of the community, the nation, and the world

おざき ゆいか Yuika Ozaki

問題意識:

核家族の増加⇒高齢者の孤立、こどもの孤独⇒話せる人が少ない
⇒交流の場が必要

Problem awareness : The rise of nuclear families (families composed only of parents and their children) has led to increased social isolation among both elderly people and children.

As a result, there are fewer people to talk to.⇒ There is a need for places where people can meet and interact.

解決策:

交流できる場所の設置にお金を使う

Solution: Investing in establishing community spaces where people can interact.

問題意識:

暑さが原因でお祭りに参加する人が減少してしまう

Problem awareness: Extreme heat reduces attendance at outdoor festivals, making it difficult for people to gather and interact in festival.

解決策:

(1)VRなどの通信機器の購入/技術支援

(2)室内の場所の設置

(3)祭りの記録/発信にお金を使う

⇒現地に行けなくても、暑くても、地域みんなが交流できるように！

Solution: Spending money on purchasing communication equipment such as VR, providing technical support, setting up indoor spaces, and recording/broadcasting festivals

⇒ So that everyone in the community can interact, even if they can't go to the site or if it's hot.

ご清聴ありがとうございました。
